

CONTROL ID	FINAL ID	TITLE	CURRENT CATEGORY	SESSION	SESSION ORDER	SESSION, DATE, TIME
4089013	LB882	Associations between cutaneous and noncutaneous adverse events among patients treated with immune checkpoint inhibitors	Clinical Research - Epidemiology and Observational Research	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-01	Saturday, May 18, 2024, 10:00am-12:30pm
4089249	LB1014	Sensory nerves impede anti-melanoma immune responses.	Pigmentation, Melanoma, and Melanoma Immune Surveillance	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-02	Saturday, May 18, 2024, 10:00am-12:30pm
4089365	LB860	Cross-disease comparison of dermatomyositis and SLE identifies non-classical monocytes and JAK-1 signaling as drivers of endothelial cell death in DM skin	Adaptive and Auto-Immunity	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-03	Saturday, May 18, 2024, 10:00am-12:30pm
4090554	LB878	Regulatory T cell derived enkephalin imparts pregnancy-induced analgesia	Cell Communication Networks and Stromal Biology	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-04	Saturday, May 18, 2024, 10:00am-12:30pm
4092947	LB934	Initial results of the CASCADE study- a community-based, decentralized, pragmatic, single-blind, randomized clinical trial of emollient therapy for the prevention of pediatric atopic dermatitis	Clinical Research - Interventional Research	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-05	Saturday, May 18, 2024, 10:00am-12:30pm
4095832	LB972	Aplasia cutis congenita is a consequence of hyperactivation of AP-2 transcription factor activity in cranial neural crest cells due to loss of KCTD1/KCTD15 function	Genetic Disease, Gene Regulation and Gene Therapy	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-06	Saturday, May 18, 2024, 10:00am-12:30pm
4098124	LB1046	Ruxolitinib cream decreases levels of skin protein inflammatory biomarkers in patients with atopic dermatitis (AD) and this improvement correlates with clinical outcomes	Translational Studies and Early Preclinical to Clinical	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-07	Saturday, May 18, 2024, 10:00am-12:30pm
4098475	LB1033	Peripheral perturbations in cytokines disrupt keratinocyte maturation in patients with JAK-STAT monoallelic defects	Systems Biology, Advanced Technologies, and Imaging	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-08	Saturday, May 18, 2024, 10:00am-12:30pm
4104099	LB968	Loss of centrosomal protein CEP43 in the adult epidermis leads to severe psoriasiform dermatitis through activation of p53	Epidermal Structure and Barrier Function	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-09	Saturday, May 18, 2024, 10:00am-12:30pm
4104465	LB958	Atopic dermatitis and behavioral functioning in children under 2 years: a population-based survey	Clinical Research - Socio-behavioral and Health, and Quality of Life Services Research	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-10	Saturday, May 18, 2024, 10:00am-12:30pm
4104638	LB1067	Chromosomal structural variants but not extrachromosomal DNAs are common in Merkel cell carcinoma	UV Biology/Injury, Carcinogenesis, and Cancer Genetics	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-11	Saturday, May 18, 2024, 10:00am-12:30pm
4105111	LB1056	Phase 1b: Translational evaluation of VYN201, a pan-BD BET inhibitor, for the treatment of non-segmental vitiligo	Translational Studies and Early Preclinical to Clinical	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-12	Saturday, May 18, 2024, 10:00am-12:30pm
4105292	LB1057	Blocking IL-22RA1 resolves molecular markers of atopic dermatitis: In vivo and in vitro atopic dermatitis model insights	Translational Studies and Early Preclinical to Clinical	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-13	Saturday, May 18, 2024, 10:00am-12:30pm
4105870	LB914	A single postoperative dose of radiotherapy (8 Gy) has comparable efficacy to a standard 5-week course for localized Merkel cell carcinoma (MCC).	Clinical Research - Epidemiology and Observational Research	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-14	Saturday, May 18, 2024, 10:00am-12:30pm
4106625	LB960	Awareness of nail melanoma among nail salon clients: A community outreach initiative	Clinical Research - Socio-behavioral and Health, and Quality of Life Services Research	Concurrent Mini-Symposium 18: Late-Breaking Abstracts	CM18-15	Saturday, May 18, 2024, 10:00am-12:30pm
4089147	LB962	Keratinocytes-intrinsic hyperactive WNT signaling compromises skin barrier formation in atopic dermatitis pathogenesis	Epidermal Structure and Barrier Function	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-01	Thursday, May 16, 2024, 5:00-6:30pm
4088997	LB986	Sun protective behaviors and time spent outdoors in sexual minority men: a cross-sectional study	Minoritized Populations and Health Disparities Research	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-02	Thursday, May 16, 2024, 5:00-6:30pm
4090179	LB1001	A novel heparan-sulfate carbohydrate on select endothelial cells can be targeted to prevent melanoma metastasis.	Pharmacology and Therapeutic Development	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-03	Thursday, May 16, 2024, 5:00-6:30pm
4092279	LB933	A randomized controlled pragmatic trial evaluating online versus in-person care for patients with atopic dermatitis	Clinical Research - Interventional Research	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-04	Thursday, May 16, 2024, 5:00-6:30pm
4091430	LB863	Spatial transcriptomics reveals structurally organized and distinct immune polarization in inflammatory cutaneous granulomatous disorders	Adaptive and Auto-Immunity	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-05	Thursday, May 16, 2024, 5:00-6:30pm
4094348	LB936	NFX-179 topical gel for the treatment of cutaneous neurofibromas in neurofibromatosis type 1: a multicenter phase 2b study	Clinical Research - Interventional Research	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-06	Thursday, May 16, 2024, 5:00-6:30pm
4099954	LB957	Use of Mohs micrographic surgery for the treatment of keratinocyte carcinomas in the elderly	Clinical Research - Socio-behavioral and Health, and Quality of Life Services Research	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-07	Thursday, May 16, 2024, 5:00-6:30pm
4101108	LB1034	Meta-analysis of scalp transcriptome defines alopecia areata subtypes and molecular response to four (4) treatments with jak inhibiting properties	Systems Biology, Advanced Technologies, and Imaging	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-08	Thursday, May 16, 2024, 5:00-6:30pm
4105065	LB1055	Preclinical studies: Translational evaluation of VYN201, a pan-BD BET inhibitor, for the treatment of non-segmental vitiligo	Translational Studies and Early Preclinical to Clinical	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-09	Thursday, May 16, 2024, 5:00-6:30pm
4105190	LB1026	An IL-17A-HIF1a axis-controlled dysfunctional epithelial state fuels inflammatory skin disease	Stem Cell Biology, Tissue Regeneration and Wound Healing	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-10	Thursday, May 16, 2024, 5:00-6:30pm
4101445	LB1008	KLK5/7 targeting antibody, TRIV-509, ameliorates barrier dysfunction, inflammation and itch in atopic dermatitis models.	Pharmacology and Therapeutic Development	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-11	Thursday, May 16, 2024, 5:00-6:30pm
4105324	LB973	11-year safety profile of genetically engineered autologous cell therapy in recessive dystrophic epidermolysis bullosa	Genetic Disease, Gene Regulation and Gene Therapy	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-12	Thursday, May 16, 2024, 5:00-6:30pm
4105747	LB1018	Regulatory T cells inhibit CD8+ TRM-like cells during the early stages of tumor immune escape	Pigmentation, Melanoma, and Melanoma Immune Surveillance	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-13	Thursday, May 16, 2024, 5:00-6:30pm
4105931	LB915	Clinical characteristics and incidence of melanoma in pediatric and adolescent and young adults: a retrospective cohort study of the national childhood cancer registry	Clinical Research - Epidemiology and Observational Research	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-14	Thursday, May 16, 2024, 5:00-6:30pm
4106769	LB1059	Neuromediators associated with neurogenic skin inflammation promote M2 differentiation of macrophages in human skin ex vivo	Translational Studies and Early Preclinical to Clinical	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-15	Thursday, May 16, 2024, 5:00-6:30pm
4107147	LB974	Mutation spectrum of cutaneous vascular anomalies	Genetic Disease, Gene Regulation and Gene Therapy	Select E-Poster Discussions (Session 1): Late-Breaking Abstracts	SEPD1-16	Thursday, May 16, 2024, 5:00-6:30pm
4088932	LB859	Development of new passive-immune mouse models for cutaneous arteritis using proteome-wide autoantibody screening discoveries	Adaptive and Auto-Immunity	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4089141	LB975	DNA methylation is required for protective immunity and temporospatial immune cell responses to staphylococcus aureus	Innate Immunity, Microbiology, and Microbiome	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4089209	LB987	Oral metformin reverses profibrotic signature in central centrifugal cicatricial alopecia	Minoritized Populations and Health Disparities Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4089309	LB1060	Downregulation of carnitine acetyltransferase by promoter hypermethylation regulates ultraviolet-induced matrix metalloproteinase-1 expression in human dermal fibroblasts	UV Biology/Injury, Carcinogenesis, and Cancer Genetics	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4089313	LB1061	STED nanoscopy unveils intricate details of mitochondrial morphology and biomolecular composition upon UV irradiation	UV Biology/Injury, Carcinogenesis, and Cancer Genetics	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4089327	LB1062	Functionally similar genes exhibit comparable/similar time-course expression kinetics in the UV-induced photoaged mouse model	UV Biology/Injury, Carcinogenesis, and Cancer Genetics	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4089395	LB930	Fractional CO2 laser for the treatment of port wine stains with hypertrophy: A case report	Clinical Research - Interventional Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4089417	LB1063	P16 expression in hypertrophic lichen planus	UV Biology/Injury, Carcinogenesis, and Cancer Genetics	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm

CONTROL ID	FINAL ID	TITLE	CURRENT CATEGORY	SESSION	SESSION ORDER	SESSION, DATE, TIME
4089569	LB988	VISIBLE: Guselkumab (GUS) skin and scalp clearance in skin of color (SOC) participants (pts) by baseline (BL) inflammatory disease burden	Minoritized Populations and Health Disparities Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4089595	LB861	Control of Th17 cells by vitamin D receptor signaling	Adaptive and Auto-Immunity	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4089703	LB862	Psychosocial burden of autoimmune blistering diseases (AIBD): A comprehensive survey study	Adaptive and Auto-Immunity	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4089851	LB989	The impact of structural barriers and vulnerability: a dermatologic case report	Minoritized Populations and Health Disparities Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4089927	LB931	Treatment of chronic graft-versus-host disease with combination extracorporeal photopheresis and the ROCK2 inhibitor belumosudil can reverse sclerodermatous changes	Clinical Research - Interventional Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4090286	LB883	Association between neighborhood socioeconomic status and new hidradenitis suppurativa diagnoses in a health system	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4090339	LB932	Dietary reduction of free fatty acids improves psoriasis disease activity independent of weight loss by modulating the inflammatory activation status – results of a nutrition study	Clinical Research - Interventional Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4091447	LB884	A matched retrospective cohort study assessing CGRP inhibition on acne and rosacea development in migraine patients	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4091671	LB885	Solid-organ transplantation and the risk of merkel cell carcinoma: A retrospective cohort study	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4092501	LB953	Relationships between patient-reported diet and acne vulgaris	Clinical Research - Socio-behavioral and Health, and Quality of Life Services Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4092787	LB963	Spectrin governs cell shape and barrier formation during epidermal development	Epidermal Structure and Barrier Function	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4093075	LB886	Psoriasis is linked to a higher incidence of major adverse cardiovascular events despite statin use.	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4093121	LB887	The impact of a multidisciplinary clinic on diagnosis and management of patients with cutaneous t-cell lymphoma	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4093122	LB888	Melanoma risk in individuals with turner syndrome: A case-control study in SEER-medicare	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4093623	LB935	Ruxolitinib cream for discoid lupus erythematosus: An open-label pilot study of ten patients	Clinical Research - Interventional Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4094152	LB864	Investigating the role of neurotransmitter-mediated immunological dysfunction in alopecia areata	Adaptive and Auto-Immunity	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4094170	LB865	Hypercoagulability states are associated with disease activity in autoimmune blistering disease	Adaptive and Auto-Immunity	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4094230	LB990	A cross-sectional Comparison between male and female endowed dermatology chairs	Minoritized Populations and Health Disparities Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4094406	LB991	Teledermatology eConsults Effectively Triage Referrals to Prioritize Access to In-person Care	Minoritized Populations and Health Disparities Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4094423	LB889	Generalized pustular psoriasis patient characteristics and treatments in US-based real-world datasets	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4094495	LB954	Characterizing nipple skin injuries in postpartum women	Clinical Research - Socio-behavioral and Health, and Quality of Life Services Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4094507	LB890	Circulating immunoglobulin e levels as a biomarker for therapeutic response to dupilumab among patients with prurigo nodularis	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4094663	LB1021	Regulation of Hair Growth and Pigmentation by Targeting Casein Kinase 1α in Keratinocytes	Stem Cell Biology, Tissue Regeneration and Wound Healing	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4094929	LB937	Efficacy, Safety, Tolerability and Durability of Microneedling Plus Topical Tranexamic Acid in Combination with Topical Modified Kligman Formula for Melasma Treatment: A Blinded Randomized Controlled Clinical Trial	Clinical Research - Interventional Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4094985	LB992	Shifting paradigms in dermatology: understanding gender disparities in dermatology through the lens of Claudia goldin's nobel prize	Minoritized Populations and Health Disparities Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4094993	LB964	Pharmacological activation of SERCA2b and CaSR rescues calcium signaling in aged epidermis	Epidermal Structure and Barrier Function	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4095771	LB955	Rheumatoid diseases associated with hidradenitis suppurativa: A systematic review and meta-analysis	Clinical Research - Socio-behavioral and Health, and Quality of Life Services Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4095806	LB891	Analysis of breast health outcomes in women on oral 5-alpha reductase inhibitors: A single-center retrospective cohort study	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4096044	LB866	Deep immunophenotyping of generalized pustular psoriasis patients with IL36RN mutations through single-cell transcriptomic profiling	Adaptive and Auto-Immunity	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4096472	LB892	Assessing the risk of alopecia areata development in patients with seasonal and food allergies: a matched population-level analysis.	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4096642	LB867	Development of tertiary lymphoid structure in dermal tumors and anti-tumor immunity	Adaptive and Auto-Immunity	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4096757	LB1044	Investigating the effect of blue light on circadian genes in epidermal keratinocytes and its impact on skin health	Translational Studies and Early Preclinical to Clinical	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4096880	LB938	JNI-77242113, a targeted oral peptide that binds the interleukin (IL)-23 receptor, inhibits IL-23 signaling in the skin of psoriasis (PsO) patients	Clinical Research - Interventional Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4097071	LB893	Cutaneous Cryptococcosis Evaluation on Reflectance Confocal Microscopy (RCM)	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4097191	LB993	Attitudes, practices, facilitators, and barriers to sexual orientation and gender identity data collection in dermatology practices	Minoritized Populations and Health Disparities Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4097240	LB1045	Inhibition of pyruvate oxidation activates human hair follicle stem cells ex vivo.	Translational Studies and Early Preclinical to Clinical	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4097540	LB894	Actinic keratosis in solid organ transplant recipients: A commercial claims-based cohort study	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4097688	LB1032	Utilizing Derek Nexus to Predict Skin Sensitization Potential for Cosmetic Ingredients	Systems Biology, Advanced Technologies, and Imaging	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4097723	LB965	A conformal mechano-mimetic skin with therapeutic potential	Epidermal Structure and Barrier Function	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4097749	LB976	Characterizing the intratumoral microbiome of mucosal melanoma and association with clinical outcome	Innate Immunity, Microbiology, and Microbiome	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4097768	LB1002	N-Myristoyltransferase: A potential target in melanoma	Pharmacology and Therapeutic Development	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4097908	LB868	MAPK pathway activation promotes inflammatory reaction in keratinocytes of familial hidradenitis suppurativa	Adaptive and Auto-Immunity	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4098086	LB1003	Novel mechanism of action of IVIg/SCIg therapy through extracellular vesicles	Pharmacology and Therapeutic Development	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm

CONTROL ID	FINAL ID	TITLE	CURRENT CATEGORY	SESSION	SESSION ORDER	SESSION, DATE, TIME
4098105	LB939	Intravenous gplimumab for hidradenitis suppurativa is a safe and effective replacement after infliximab anaphylaxis or loss of efficacy due to neutralizing antibodies	Clinical Research - Interventional Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4098464	LB895	Occupational exposure to mechanical stress and risk of acral lentiginous melanoma	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4098468	LB896	Correlation of plastics use, processed food and sweating with Hidradenitis Suppurativa	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4098470	LB956	Trends in cutaneous wound management in the United States	Clinical Research - Socio-behavioral and Health, and Quality of Life Services Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4098476	LB1047	Comparative analysis of cutaneous hormonal profiles in pre-menopausal and post-menopausal women	Translational Studies and Early Preclinical to Clinical	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4098482	LB1022	Lipid nanoparticle-mediated delivery of mRNA for epigenetic reprogramming of skin	Stem Cell Biology, Tissue Regeneration and Wound Healing	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4098553	LB1004	Role of brevilin A in ameliorating psoriasis through HSP70 modulation	Pharmacology and Therapeutic Development	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4098583	LB977	Whole-transcriptome Sequencing Determines Host Genetic and Microbial Determinants of Skin Lesions in Patients with Persistent Cutaneous Infections	Innate Immunity, Microbiology, and Microbiome	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4098646	LB1015	Evaluating ChatGPT's Accuracy in Answering the American Academy of Dermatology's Clinical Guideline Questions for Cutaneous Melanoma (2019)	Pigmentation, Melanoma, and Melanoma Immune Surveillance	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4098754	LB940	SB206 (berdazimer gel 10.3%) for the treatment of molluscum contagiosum: results from a Japanese Phase 2 Study (SKN15B01)	Clinical Research - Interventional Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4098940	LB1005	Suppression of NRAS-mutant melanoma growth with NRAS-targeting ASO treatment reveals therapeutically relevant kinase co-dependencies	Pharmacology and Therapeutic Development	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4099448	LB1006	The 'tea' on green tea: A systematic review	Pharmacology and Therapeutic Development	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4099695	LB1064	UV-induced mutations inhibit the binding of ETS transcription factors to the Cdkn2a/p16 promoter	UV Biology/Injury, Carcinogenesis, and Cancer Genetics	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4100025	LB994	Dermatology personal statement themes and match outcomes.	Minoritized Populations and Health Disparities Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4100076	LB1007	Systemic treatment with a KLKS inhibitor shows efficacy in a murine model of Netherton syndrome	Pharmacology and Therapeutic Development	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm

4106814	LB1039	Deciphering shared immune signaling pathways in atopic dermatitis and skin cancer using NanoString pancancer immune profiling	Systems Biology, Advanced Technologies, and Imaging	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4106869	LB923	A matched cohort study evaluating the risk of keloid development in alopecia areata patients.	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4106870	LB1040	Machine learning-based predictive model with routine blood work identifies moderate-severe alopecia areata	Systems Biology, Advanced Technologies, and Imaging	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4106908	LB924	Evaluating the impact of Dupilumab versus Systemic Immunosuppressant Therapy on Renal Outcomes in Moderate to Severe Atopic Dermatitis	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4106995	LB881	Unraveling mechanisms of scarring alopecia in discoid lupus: Insights from spatial transcriptomics	Cell Communication Networks and Stromal Biology	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4107046	LB1000	Evidence behind commonly used ingredients for dermatologic conditions in the black community	Minoritized Populations and Health Disparities Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4107054	LB1041	Preliminary assessment of microneedle wound healing in a full-thickness ex vivo human skin model cultured at physiological tension	Systems Biology, Advanced Technologies, and Imaging	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4107098	LB961	Solving the impossible: Decreasing patient wait times in a strained healthcare system	Clinical Research - Socio-behavioral and Health, and Quality of Life Services Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4107108	LB925	Evaluation of the association between spironolactone or tetracycline-class antibiotic use in female acne patients and breast cancer development risk.	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4107118	LB926	A retrospective study on demographics and epidemiology of pyoderma gangrenosum: insights from a single-center analysis	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4107161	LB971	Super-Resolution Imaging of Desmosome Architecture in Response to Stretch	Epidermal Structure and Barrier Function	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4107172	LB927	Laboratory markers of dupilumab patients with moderate-to-severe atopic dermatitis: a single-center, real-world study	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4107211	LB1042	The effect of mechanical tension on bolus morphology and integration following intradermal injection in an ex vivo human skin model	Systems Biology, Advanced Technologies, and Imaging	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4107215	LB928	A matched retrospective cohort study assessing the bidirectional association between prurigo nodularis and alopecia areata.	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Friday, May 17, 2024, 4:00-6:00pm
4107218	LB1031	Immune Cell-Mediated Amplification of Stem Cell Activation in Hairy Melanocytic Nevus via Osteopontin-CD44 Axis.	Stem Cell Biology, Tissue Regeneration and Wound Healing	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm

CONTROL ID	FINAL ID	TITLE	CURRENT CATEGORY	SESSION	SESSION ORDER	SESSION, DATE, TIME
4107249	LB929	The use of dual therapy targeting anti-IL4R/IL-23 in the treatment of PsEma, a psoriasis and eczema overlap condition	Clinical Research - Epidemiology and Observational Research	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
4107257	LB1043	Dermal Biomarker Patch Skin Transcriptomics-Initial Validation in Atopic Dermatitis Patients Receiving Dupilumab.	Systems Biology, Advanced Technologies, and Imaging	Poster Session Only	Poster Session Only	Thursday, May 16, 2024, 4:30-6:30pm
